THE SEVENTY-EIGHTH ANNUAL REPORT OF THE  
SCHOOL BOARD OF THE TOWN  
OF DUBLIN, N. H.

---

FOR THE YEAR ENDING FEB. 15, 1900.

---

At its annual meeting the town appropriated \$1,200 for the support of its schools. An unexpended balance of \$55.38 was left from last year, making \$1,255.38. Of this \$1,191.35 has been expended, leaving \$64.03 in the treasury.

A term of ten weeks was held in four schoolhouses, and nine weeks in the other, in the spring.

In the fall a term of fifteen weeks was taught in the school which had but nine in the spring, and fourteen weeks in the other four, making twenty-four week's school in each of the five schoolhouses. This was supplemented by a union school of six weeks in the village schoolhouse, for the older scholars throughout the town who chose to attend.

Seventy-five dollars was the sum appropriated for text books and supplies, which with \$32.93, balance from last year, made available \$107.93. Expenditures in this line reached \$93.20, leaving a balance of \$14.73.

The \$100 voted for repairs at the annual meeting in March 1898 has been expended the past year in repairing No. 1 schoolhouse. The house has been resingled, the plastering mended in the schoolroom and entrys, the side walls painted and papered, and the tops of the desks renovated.

Eight different teachers have been employed during the year. Five had the benefit of experience in the work varying from a few to many years. All had received in some manner more or less training for the vocation. The teachers labored earnestly and intelligently to accomplish the best results circumstances permitted. We have reason to feel a good degree of satisfaction in the results.

Epidemics to which children are subject have lessened the attendance in several of our schools.

Parents and scholars in the majority of cases have tried to avoid tardiness. But there is need of great improvement in this respect in some parts of the town. Our advice to teachers is, take pains to regulate the schoolroom clock as accurately as possible. Be sure that it is not to fast, then mark with exactness.

A schoolroom should not be used for rough play and sport. Damaged and broken furniture is the inevitable result.

Regularity, punctuality, obedience, industry and self control with good morals and good manners constitute an essential part of education.

The inculcation of patriotism, of respect for law and order ; of whatever tends to make a good citizen, is of the highest importance.

When parents manifest a strong healthy public opinion in favor of everything which tends to make a good school, half of the battle is won.

The true test of our civilization and culture is the kind of home we are content to live in. The care of school buildings and property by the scholars reflects their civilization and culture.
